

AL-IMAM UDDIN

Backend Focused Full-Stack Software Engineer

+88 01864719755 | alimamuddin755@gmail.com | linkedin.com/in/al-imam-uddin | github.com/alimamuddin
| Portfolio | Dhaka, Bangladesh

Profile Objective

Backend-focused Full-Stack Software Engineer with 2+ years of hands-on experience building scalable web applications and backend systems using Java Spring Boot, Laravel, and Django. Proficient in RESTful API design, microservices architecture, relational and non-relational database modeling, and containerization with Docker. Familiar with CI/CD pipelines, and security best practices. Strong foundation in software engineering, agile methodologies, and cross-functional collaboration.

Skills and Tools

Languages: Java, Python, PHP

Frontend: React.js, HTML, CSS, Tailwind CSS

Backend: Spring Boot, Laravel, Django

Database & Tools: MySQL, PostgreSQL

DevOps & Cloud: Git, Docker, CI/CD (GitHub Actions)

Software Engineering: RESTful API Design, Database Modeling, Design Patterns, Agile methodology

Work Experience

B A R Associate

Full Stack Backend Developer

Dhaka, Bangladesh

Doel e-Service

Full Stack Developer

Dhaka, Bangladesh

Projects

AmardoKar — E-Commerce Platform for Bangladesh

• [Live View](#) →

- Built a fully production-ready bilingual e-commerce platform using PHP Laravel tailored for the Bangladeshi market, including a customer storefront and a complete admin control panel.

FoodBridge Bangladesh — Food Distribution Platform

• [Live](#) → | • [GitHub](#) →

- Developed full-stack food distribution platform connecting donors with recipients to reduce food waste; includes Merchant portal for food selling and Admin panel for system management.
- Designed RESTful APIs with Spring Boot, JWT authentication, WebSocket real-time notifications, SMTP email, 2-step OTP verification, and role-based access control.

Green Computing Platform

• [Live](#) → | • [GitHub](#) →

- Implemented data visualization dashboards for environmental metrics and built responsive UI with React.js; designed RESTful backend APIs for data management and real-time content delivery.

Research

Sustainable Farming Management System: A Web-Based Agricultural Knowledge Platform

Accepted: December 2025 Conference: 11th IEEE WICON-ECE 2025 [Link](#)

Harnessing Machine Learning to Forecast Cardiovascular Disease using Explainable AI

Conference: 2025 International Conference on Quantum Photonics, AI, and Networking (QPAIN) IEEE: [Link](#)

Machine Learning for Optimizing Renewable Energy and Solar Grid Efficiency

Journal: Springer Nature [Link](#)

Education and Trainings

East West University

BSc in Computer Science and Engineering (CSE) — Medha Lalon Scholarship holder

Aftabnagar, Dhaka-1212, Bangladesh

Oct 2021 – Sept 2025

Major: Software Engineering **Coursework:** DSA, System Design, Software Engineering, QA & Testing, Web Programming, Mobile App Development, Advanced DBMS PL/SQL, Artificial Intelligence

Certifications & Training Programs

Coursera: Google Project Management Professional Certificate (7-course series, Mar 2026) [View](#)

Ostad: Backend Web Development with Java & Spring Boot (8-month intensive program) [View](#)

HackerRank: Problem Solving [View](#) | Frontend Developer React [View](#) | Software Engineer [View](#) | SQL Intermediate [View](#) | REST API Intermediate [View](#)
